

# immunotherapies for infectious Diseases

2<sup>nd</sup> Congress 2018 – Host-Directed Therapies

[www.i4id.org](http://www.i4id.org)

*Inscriptions ouvertes*

immunotherapies for  
infectious Diseases

2<sup>nd</sup> Congress 2018 – Host-Directed Therapies

10-11 December 2018

LYON, France

Matmut Stadium

Informations and Registrations: [WWW.I4ID.ORG](http://WWW.I4ID.ORG)

## Un partenariat pertinent et complémentaire

### MABDESIGN

- MabDesign is a French non-profit membership organization in the **immunotherapy** field, with **130+ companies members**, including immunotherapy developers, service providers, training organizations and suppliers.
- MabDesign work in **4 areas of immunotherapy** :
  - mAbs, immunomodulators, therapeutics vaccines, cellular immunotherapy
  - Plus **biomarkers** as transverse technology.
- MabDesign federates and supports the industrial sector through the creation of a **national directory** of stakeholders, by developing **specialized training solutions**, and setting up high-level **scientific events** gathering together stakeholders working in the immunotherapy.
- MabDesign has developed a **set of services to companies** in order to support their economic development.

### BIOASTER

- BIOASTER is a technology institute that leads research programs in four major application fields in health-related **microbiology and infectious diseases** : vaccines, antimicrobials, diagnosis and microbiota.
- BIOASTER implements transdisciplinary R&D programs that bring together academics, small and medium-sized enterprises and industrials around thematic and technology units. BIOASTER, an independent non-profit organization, is one of eight French TRIs (Technology Research Institutes).
- It was created in 2012 at the initiative of Lyonbiopôle and the Institut Pasteur in Paris. It was founded by CNRS, INSERM, the CEA, Mérieux Institute, Danone Research and Sanofi Pasteur and is supported by 40 SMEs in the Lyon and Paris regions as well as the French government, through the Investments for the future program for the Grand Lyon la metropole and the Rhône-Alpes region. BIOASTER has a staff of 120 people, including more than 70 scientists and engineers, from 16 different nationalities.

**immunotherapies for  
Infectious Diseases**  
congress 2017

**11-12 December 2017**  
Lyon, France  
Congress Center

**175+ Participants**  
**80+ Organizations**  
**33+ Speakers**  
**11+ Countries**

**2017 SPONSORS & EXHIBITORS**

**2017 PARTNERS**

## I4ID : un programme à 360°

*The Nobel Prize for Medicine on PD1 and CTLA4 demonstrates the interest of the scientific community in immunotherapy. Far from focusing solely on oncology, this immunotherapy can play a fundamental role in infectious diseases.*

### 5 sessions scientifiques :

- I. Targeting the Immune system to fight **bacterial infections**
- II. Targeting the Immune system to fight **Sepsis**
- III. Targeting the Immune system to fight **viral infections**
- IV. **Bringing into clinic** Host-Directed Therapies: safety and efficiency
- V. Developing **Next-Generation** of Host-Directed Therapies

Science

B2B

Une **plateforme de rdv B2B** permettant de formaliser + de **20 rdv** sur les deux jours de congrès

Des **temps d'échanges** longs et nombreux pour des rendez-vous informels : pauses, lunch, **Cocktail Reception à Bioaster**

**immunotherapies for  
infectious Diseases**  
2<sup>nd</sup> Congress 2018 – Host-Directed Therapies

Commercial

Innovation

10 **Pitches de technologies ou de produits innovants** industriels ou académiques

Un **espace poster** permettant de se rendre visible

Possibilité de **stands** pour accroître sa visibilité : rdv B2B sur son stand

Possibilité de **sponsoring**

Nombreuses **opportunités de collaborations** et de business via les B2B

# Un comité scientifique international des experts

# I4ID2018 - Journée 1

## DAY 1

Monday 10 December 2018

- 8h30 Registration & welcome coffee
- 9h00 Welcome address
- 9h15 Keynote Lecture
- 
- Prof. Stefan H. Kaufmann**  
Director  
Max Planck Institute for Infection Biology, Germany  
Professor  
Charité University Clinics, Germany  
*Tuberculosis control: the need for better diagnosis, therapy and prevention.*
- 10h00 Session I – Targeting the Immune system to fight Bacterial Infections
- 
- Caroline Demangel**  
Head of immunobiology of infection Unit  
Institut Pasteur and INSERM U1221, France  
*Protein translocation blockade: a novel mechanism of immune evasion by Mycobacterium ulcerans*
- 10h30 Coffee break & Poster Session at Exhibition Hall | Partnering (B2B meetings)
- 11h00 Session I – Targeting the Immune system to fight Bacterial Infections
- 
- Willom Harekom**  
Deputy Director, ID (Vaccines)  
Bill & Melinda Gates Foundation, USA
- 
- Wayne Dankner**  
Chief Medical Officer  
Atox Bio, Israel
- 12h00 Lunch break

- 13h00 Poster Session – Poster presentations at Exhibition Hall
- 14h00 Session II – Targeting the Immune System to fight Sepsis
- 
- Dr. Richard Hotchkiss**  
Professor of Anesthesiology, Medicine, and Surgery  
Washington University School of Medicine, USA  
Physician  
Surgical Intensive Care Unit at Barnes Jewish Hospital in St Louis, USA  
*Immunotherapy of Sepsis – a new approach to a lethal disease*
- 
- 
- Prof. Guillaume Monneret**  
Head of Clinical Cellular Immunology Laboratory  
Lyon University Hospitals, France  
Head of EA 7426 - research unit on Pathophysiology of injury-induced immunosuppression  
Lyon University, France  
*Monitoring immune alterations: toward personalized immunotherapy in sepsis*
- 
- 
- Desiree Perlee**  
PhD student  
Center of Experimental & Molecular Medicine, University of Amsterdam, Netherlands  
*Stem cells as a possible treatment for sepsis*
- 
- 
- 
- Dr. Fabienne Venet**  
Associated Professor, Physician  
Lyon University Hospitals  
EA 7426 - research unit on Pathophysiology of injury-induced immunosuppression  
Joint Research Unit bioMérieux-Hospices Civils de Lyon-Université Claude Bernard Lyon 1, France
- 
- 16h00 Coffee break & Poster Session at Exhibition Hall | Partnering (B2B meetings)
- 16h30 Pitch Session – Innovation on HDT approaches to treat Infectious Diseases  
Selection of the best 10 abstracts to give a 10min talk.
- 18h00 End of Day One
- 20h00 Cocktail Reception and Networking

# I4ID2018 - Journée 2

## DAY 2

Tuesday 11 December 2018

8h00 Welcome coffee

8h30 Keynote Lecture

**Eric Vivier**

*Professor of Immunology*

Aix-Marseille University and Public Hospital of Marseille, France  
CSD

Innate Pharma, France

*Innate lymphoid cells: from discovery to cancer treatment*

9h30 Session III – Targeting the Immune System to fight Viral Infections

**Prof. Mala Maini**

*Professor of Viral Immunology and Honorary Consultant*

Division of Infection and Immunity at UCL, UK

*Manipulating defective T cell immunity for HBV functional cure*

**Uzma Hasan**

*Principal Investigator*

CIRI – U1111 Inserm, France

*Potential immunotherapeutic targets for infectious cancers*

**Inserm**

10h30 Coffee break & Poster Session at Exhibition Hall | Partnering (B2B meetings)

11h00 Session III – Targeting the Immune System to fight Viral Infections

**Dr. Carolina Boni**

*Researcher*

University Hospital of Parma, Italy

*Targeting innate immunity receptors and HBV-specific T cells to cure chronic HBV infection*

**University Hospitals  
Parma Medical Center**

**David Durantel**

*Senior Researcher in Molecular Virology*

INSERM, France

*Innate immune agonists in immune-therapies against HBV/HIV infections*

**Inserm**

12h00 Lunch break

13h00 Poster Session – Poster presentations at Exhibition Hall

14h00 Session IV – Bringing into clinic Host-Directed Therapies: safety and efficiency

**Pierre-François Laterre**

*Head of the ICU*

St. Luc University Hospital, UCL, Belgium

**Mark Miller**

*Executive Vice President, Chief Medical Officer*

bioMérieux, France

*Companion, supportive and twisting diagnostics for immunotherapy: why are we taking compared to oncology?*

15h30 Coffee Break & Poster Session at Exhibition Hall | Partnering (B2B meetings)

16h00 Session V – Developing Next-Generation of host-directed therapies

**Eric Meldrum**

*Chief Scientific Officer*

Enyo Pharma, France

*A novel approach to identify host targeted therapies for infectious & non-infectious disease*

**Nicolas Manel**

*Team Leader*

Institut Curie, France

*Research Director*

INSERM, France

*Unravelling the innate immune sensors of viruses*

**Dr. Rafael Malleo**

*Director of Critical Care Medicine*

Bellvitge University Hospital, Spain

*Head of the research group Innate Immunity and Pathology of the Critical Patient*

Bellvitge Biomedical Research Institute (IDIBELL), Spain

Hospitalet de Llobregat Barcelona, Spain

*Founder*

RemAb Therapeutics, Spain

*Removal of non-killing antibodies elicits protective immunity against infections*

17h30 Announcement of the Best Pitch & Best Poster

17h45 Closing remarks

18h00 End of Congress

# I4ID2018 – Sponsors & Partners

## SPONSORS & EXHIBITORS

## INSTITUTIONAL PARTNERS

## MEDIA PARTNERS

# Objectifs

250 participants dont 20% d'étrangers  
300 rendez vous B2B sur les 2 jours – un hall d'exposition

Générer des collaborations et des partenariats scientifiques et technologiques entre académiques et industriels

Favoriser la signature de deals entre des sociétés développant des produits et celles offrant des technologies favorisant leur développement.

**immunotherapies** for  
**Infectious Diseases**

2<sup>nd</sup> Congress 2018 – Host-Directed Therapies

Créer un événement annuel de référence

Continuer à positionner la métropole Lyonnaise, la région Auvergne Rhône-Alpes et la France comme leader en infectieux et en immunothérapie en créant le ***l'événement international uniquement dédié aux immunothérapies anti infectieuses.***

[www.i4id.org](http://www.i4id.org)

***Merci, nous vous attendons nombreux pour la  
2<sup>ème</sup> édition des I4ID !***
