

Our Mission

To provide disruptive technologies, products and services to better understand and master cell biology!

New state-of-the-art facilities @ BioSerra2

- Cell Biology
- Molecular Biology
- Microbiology
- Customer Demo
- Workshop

cellen?NE

Single cell isolation and nanoliter dispensing

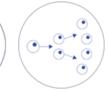

Cell Line Development

Single Cell Omics

Complete solutions

proteoCHIP

sphero: NE

Single spheroid & organoid sorting and dispensing

- Standardization of 3D cellular models for drug discovery
- Enhanced drug screening workflow & assay quality
- Complex in vitro model and disease modelling

cellenSERVICES

BICO Single Cell Analyses Centre of Excellence

- Cell enrichment for rare cell studies
- 3' scRNA-Seq
- Full Length scRNA-Seq
- Automated cloning for cell line development

- Spheroid / organoid sorting & isolation
- scProteomics
- scWGS

Today

Tomorrow

A Truly Multicultural Team

35 employees from 14 countries

Special thank to our Customers

Cancer Research Centres

UNIVERSITY OF VIENNA
