SOLADIS GROUP

DATA INSIGHT VALUE

Soladis is a data expert in health area.

Its unique know-how in statistics, biostatistics, clinical trials, data science, IoT, digitalization makes Soladis the perfect partner for your data-related projects.

Real life data

STATISTICS

Methodology, Programming, Statistical Analysis

OMICS

Bioinformatics, Biostatistics, Bioanalysis

CLINICAL STUDIES

Clinical Trial Management, Medical/Nutritional Expertise, Personalized Medicine

DIGITAL

Big Data Studies, Data Science, Machine Learning/A.I

CONNECT

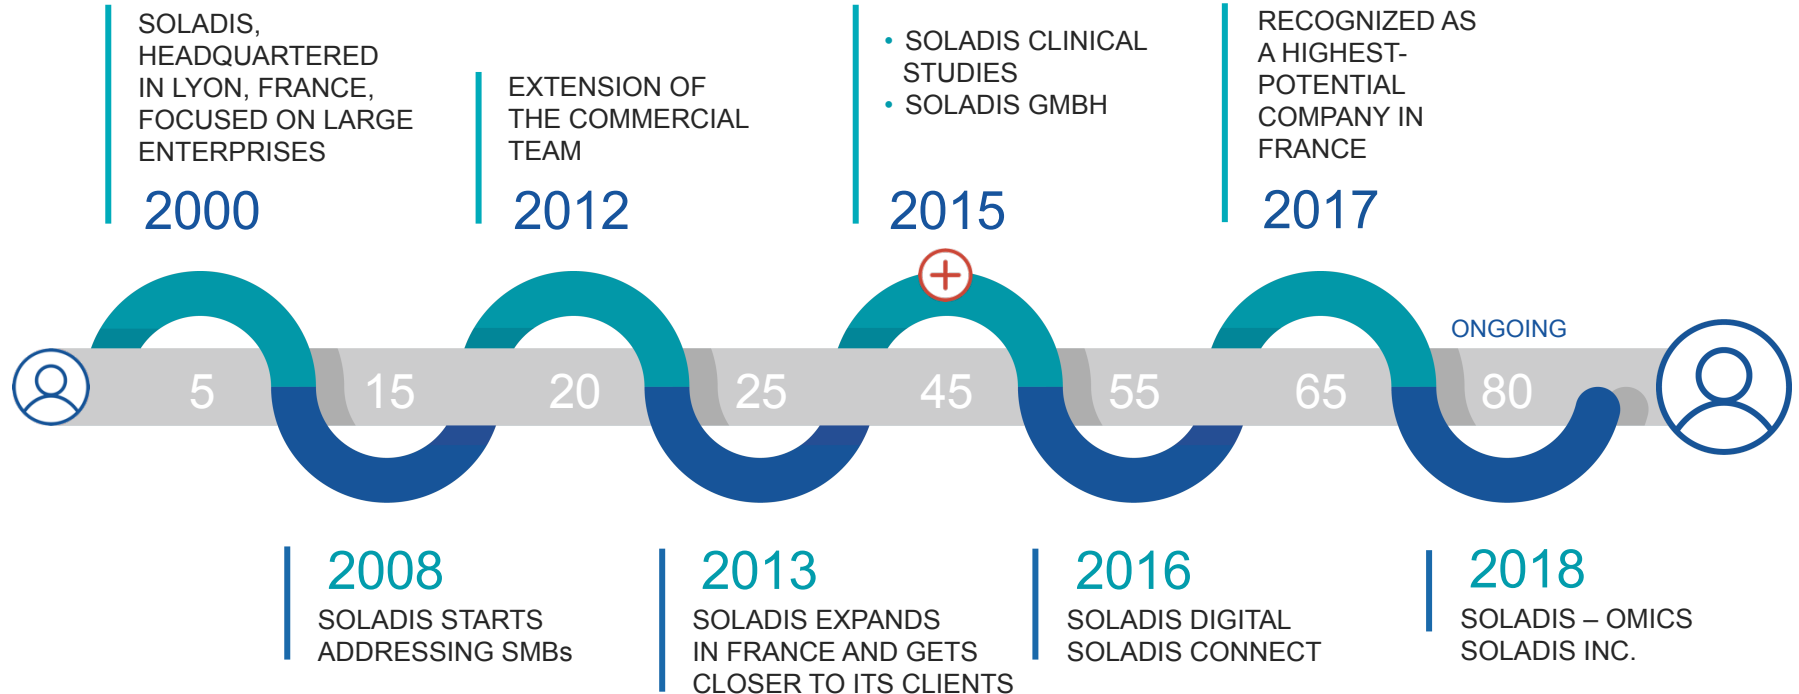

Sensors – IoT, Connected Devices, Prototyping

R&D

R&D of Digital solutions for Life Sciences

A GROWING EXPERT COMPANY

SOLADIS CLINICAL STUDIES

|| CLINICAL STUDIES

INDUSTRIES WE ADDRESS

PHARMA LABS – BIO/MEDTECHs –
MD/IVD – HOSPITALS – COSMETICS
– NUTRITION – VETERINARY

15+

Collaborators
(out of biostatistics)

50+

Ongoing
projects

100+

Scientific
publications

SOLADIS CLINICAL STUDIES

A CRO with over 25 years of experience, compliant with most standards (ICH, CDISC, etc.) and regulatory requirements (EMA and other local authorities in Europe). Work with life sciences stakeholders, from the writing of protocols to the publication of scientific articles.

soladis^{GROUP}

OUR SPECIALIZATIONS

- Clinical Trial Management
- Medical/Nutritional Expertise
- Personalized Medicine

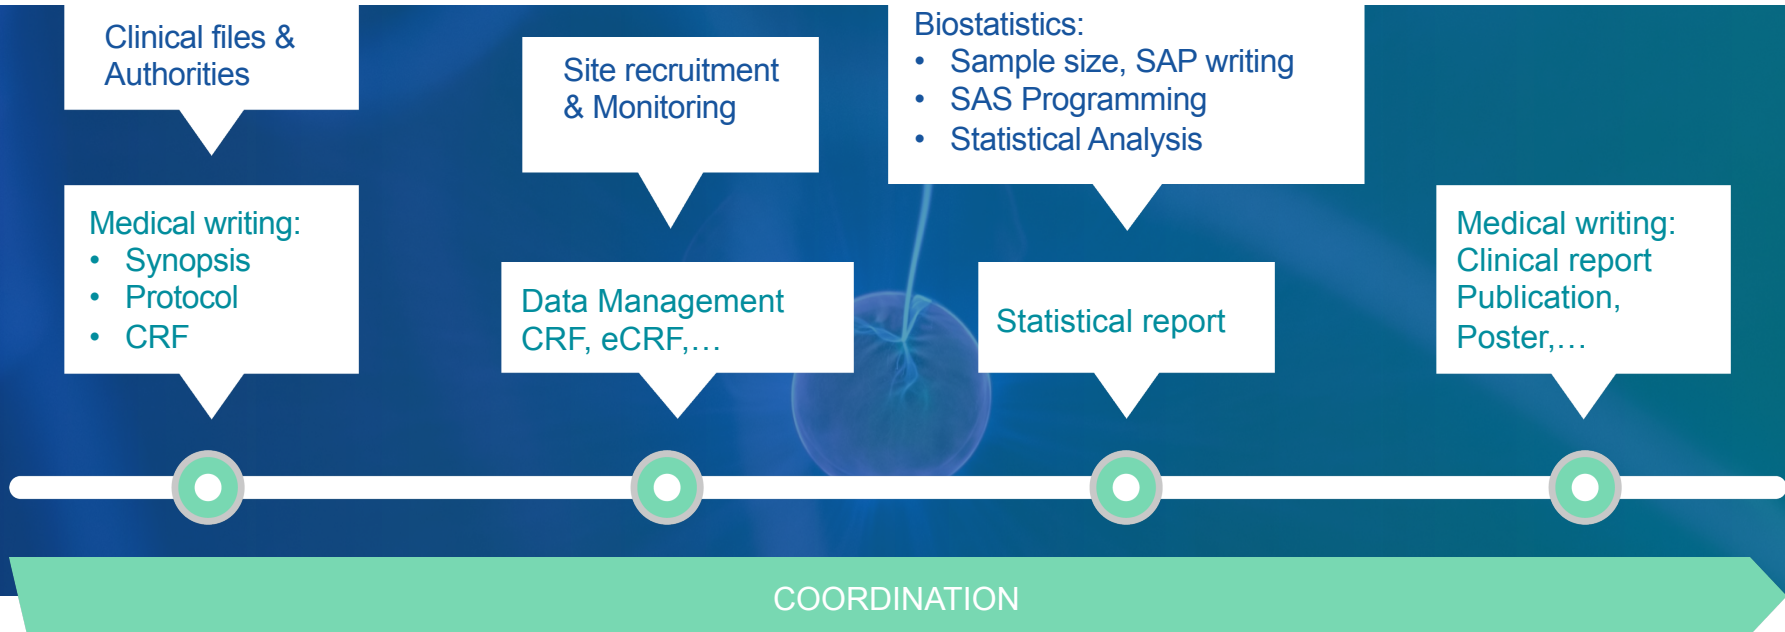

ADVANTAGES

- Statistical team dedicated to clinical studies , with various expertises
- Local development (new French clients) and international development (Europe, Boston / Toronto)
- Development of the activity (training courses, IoT, Medical devices...)

OUR CLINICAL EXPERTISE

A CLINICAL CRO ACTIVITY: Full-services or specific activities

SOLADIS DIGITAL

Link - Test

SOLADIS CONNECT

The specialist partner in
measurement technologies for
data capture challenges

OUR SPECIALIZATIONS

Design and Implementation of data measurement and acquisition technologies
Working with you to select the variables that best suit your needs, identify the right technologies for obtaining reliable data, adapt them to your needs, and deploy them for your purposes.

SOLADIS STATISTICS

STATISTICS

35+

Statisticians
& biostatisticians

350+

Studies per
year

20+

Years
of experience

SOLADIS STATISTICS

Help companies manage data related projects, work with them to define experimental study designs and methodologies, manage their data flows and exploit data to extract the information & models they are looking for.

OUR SPECIALIZATIONS

- Methodology
- Programming
- Statistical Analysis

SOLADIS OMICS

|| OMICS

+10

OMICS Specialists

3

Bio complementary skills
Informatics / Statistics / Analysis

4

Areas of expertise in Omics:
Geno / Transcripto / Proteo / Metabo

SOLADIS OMICS

Harness the power of life to transform your projects
Benefit from Soladis' expertise at each stage of the
process of your Omics project

OUR SPECIALIZATIONS

Custom-made service, from the design to the exploitation of your -Omics data,
and the opportunity to amplify your research with the expertise of our Soladis
Connect, Digital and Stat business units.
